IMPROVING COMMUNICATION SKILLS FOR SUCCESS

Marcia Hoodwin, MA, CCC-SLP at **ACCENTS AWAY** is a Florida licensed and certified speech/language pathologist with more than 10 years of experience in accent modification. A member of the American Speech, Language and Hearing Association, her background includes experience in the field of speech and language pathology, working with articulation and language disorders, as well as experience with individuals learning English as a second language (ESL). Many second language speakers find that, because the accent of their native language transfers to their English pronunciation, they experience difficulty in being understood in business, school, and social situations. Learning improved pronunciation & intonation, grammar and vocabulary often gives clients language skills and self-confidence to succeed in situations important in their lives.

Marcia has worked with clients whose native languages include French, Spanish, Chinese, Russian, Japanese, German, Vietnamese & Italian. People who take her course often times are seeking to improve their interviewing skills, telephone skills, presentation skills, ability to communicate in meetings, and to increase their chances for promotion. She works with large corporations, schools, and businesses at their location for added client convenience.
